
- Why change is necessary over conventional models?
- Challenges for adoption?
- Hardware changes desired/required?

- Why change is necessary over conventional models?
- Challenges for adoption?
- Hardware changes desired/required?

- Why change is necessary over conventional models?
  - models have changed already
    - Hadoop, Spark...

- Why change is necessary over conventional models?
  - models have changed already
    - Hadoop, Spark...

- Challenges for adoption?
  - we already know the answers
    - performance is not the absolute metrics
    - comsumability is paramount
    - fault tolerance is assumed

- Why change is necessary over conventional models?
  - models have changed already
    - Hadoop, Spark...

- Challenges for adoption?
  - we already know the answers
    - performance is not the absolute metrics
    - comsumability is paramount
    - fault tolerance is assumed

- Hardware changes desired/required?
  - who wanted multicores? accelerators?
  - hardware is going to do less and less for us
